Workers'
Compensation
Board of Nova Scotia

Workers' Compensation Board of Nova Scotia

1991 Statistical Review

The Workers' Compensation Board can play an important role in assisting employers and employees in the development of effective accident prevention programs.

We recognize the production of timely data providing detailed information about work related injuries as being integral to the success of effective accident prevention procedures.

An enhanced statistical supplement like this one will be published every three years. Each year, the Board's Annual Report will continue to provide summary claim information.

And each year, claims statistics specific to a particular industry group can be made available upon request on either a monthly, quarterly or yearly basis.

If your industry sector would like to receive this information, please contact the Public Affairs department at 424-5075.

A.B. Collins APR

*Director of Public Affairs
and Policy Development*

Glossary of Terms

Accepted

Responsibility is recognized for a work-related injury/disease.

Accident Date

The date of occurrence of the work-related injury; or date of registration of industrial disease until such time as a pension is awarded. The accident date then becomes the effective date of the award, except in cases of pension increase.

Active

Any claim that is receiving action within the Board.
A claim that is not currently in Location 30 or 930.

Benefits

Payments administered by the Board in relation to the compensable injury or condition.

Calendar Days

Every day inclusive of holidays and weekends.

Claim Status

The current status of a claim. Identified as A = Active, I = Inactive, M = Merger.

Claim Type

As reported, these types are L = Loss Time, N = No Loss Time, F1 = Direct Death Injury, F2 = Death as a Result of Injury (reasonable length of time following injury).

Client

A person who reports having suffered a work-related injury/condition and has made application to the WCB.

Closed

A claim file that has been assigned to Location 30 or 930. A claim is assigned to Location 30 or 930 when no further activity is anticipated or expected.

Compensable Days/Weeks

Time Loss reported to WCB, subsequently accepted and paid. Weeks is captured through CAPS and Manual Compensation. Days are calculated by the number of compensable weeks multiplied by the number of days in the work week. (only captured through CAPS). If not a CAPS claim, it is assumed that the number of days in the work week is 5.

Disposition

Identifies the Board's current level of responsibility. This is reported by Overall, Comp, Med Aid, Rehab and Pensions.

Duration

The measured time between two events.

Event

Recorded dates within the life cycle of a claim.

Fatal

As reported in claim type, an occurrence where a client has died as a result of a compensable injury/disease. Divided into two subgroups: Fatal 1—Client dies immediately following accident; Fatal 2—Client dies as a result of the injury or condition within a reasonable length of time.

Final Payment

The most recent payment date for a claim that is inactive/closed.

First Payment Date

The date the first payment was processed by WCB. The date the first payment was posted to the payment file.

Inactive

See Closed.

Industrial Disease

Any disease peculiar to or characteristic of a particular industrial process, trade or occupation. See Schedule A of the Worker's Compensation Act.

Last Payment Date

The date of the most recent payment. The date the last payment was posted to the payment file.

Lump Sum

A payment issued to a client whose total permanent disability generally does not exceed 10%. This payment is made in lieu of a monthly Pension Award and does not preclude further pension increases.

Medical Aid

Payments made for Medical Services rendered and/or related expenses.

Merger

Term used to identify the assigning of more than one claim number for a particular injury/disease.

Nature

Identifies the injury or illness in terms of its principal physical characteristics.

No Time Loss

A work-related injury/condition that has not resulted in any reported loss of time from work.

A claim that is inactive with Medical Aid payments and no compensation/rehab payments; or an inactive claim without any type of payment where the claim disposition is not NOA or DIS.

Part

Identifies the part of the body directly affected by the injury or illness previously identified.

Payment Claim

Any claim which has received any type of payment in the reporting period.

Payment Codes

Identification codes given to payments made by the WCB. These codes classify the payment type.

PPD/PTD

Permanent Partial Disability/Permanent Total Disability. Financial compensation payable to a client or a client's designate where it has been determined that as a result of the compensable injury/condition, the client suffers from permanent medical disability.

Program Area

Identifies the payment area type. These types are C = Compensation, M = Medical Aid, R = Rehabilitation, P = Pension.

Reactivate (formerly Reopen)

An inactive claim that becomes active. A claim that has moved from Location 30 or 930 to another location.

Registered Date (formerly Open Date)

Date a claim was entered into the computer system. A claim number is assigned to the reported accident.

Regular Pension

A monthly benefit awarded to a client or designates where there is a permanent disability.

Rehab Assistance

All related costs (except rehab benefits) that are incurred by the Rehab Dept. during its efforts to return a client to the workforce.

Rehab Benefits

Financial compensation paid for loss of wages when a client is involved with the Rehab Dept. in an attempt to return to the workforce.

Service Area

The payment for a certain type of medical service. The types are T = Compensation, N = Medical Aid Only Claim, R = Rehab Claim, P = Pension Claim, L = Wage Loss Claim, E = Employer Incentive Program Claim (EIP).

Source

Identifies the object, substance, exposure or bodily motion which directly produced, transmitted or inflicted the injury or illness previously identified.

Summary

The point in time when sufficient information is received on a claim to refer it for a time-loss decision.

Time Loss

Identifies that a client has lost time from work as a result of a work-related injury. A claim with compensation payments.

Total Activity

The total active claim at the beginning of the reporting period plus new and reactivated claims during the reporting period. This will be more than the total number of currently active claims.

TPD/TTD

Temporary Partial Disability/Temporary Total Disability. Financial compensation payable to a client where that client suffers from a temporary partial/total loss of wages due to the compensable injury.

Type

Identifies the event or exposure which directly caused the injury or illness.

Summary Data

THE INFORMATION PROVIDED in this section represents overall summary data including pre and post-Client Processing Systems (CPS) implementation.

Please note the following abbreviations that appear throughout this report.

NEC: NOT ELSEWHERE CLASSIFIED

UNS: UNSPECIFIED

Total Activity

	1990	1991
ACTIVE CLAIMS (INCLUDING PENSIONS)	34,573	33,510
